Subject: Eligible Response Sites List – Site Exclusions

Dear Ms. Kawabata:

The Washington Department of Ecology Toxics Cleanup Program (Ecology) has completed its review of the proposed CERCLIS site exclusions from the Environmental Protection Agency (EPA) Eligible Response Site (ERS) list sent by you recently.

Ecology fully concurs with the entire list of submitted sites. This is based on discussions with Ecology regional site managers, and the follow-up communication from Monica Tonel of your Unit that sites excluded under CERCLA Section 101(41)(i) remain eligible for grant or loan funding under sections 104(k) (brownfields funding) and 128(a) (state and tribal response program funding). I am enclosing this list in a reformatted form, with sites ordered by Ecology regions/counties.

Ecology will continue to expeditiously review future site-specific exclusion requests. Please call me at (360) 407-7195 if you have any comments.

Sincerely,

Michael J. Spencer
